E-Squared Engineering is the ITS CVO General Consultant (GC) to the Florida Department of Transportation, ITS Program Office. In their role as GC they support the Florida CVISN Program by managing CVISN projects, developing RFP's, conducting nationwide/statewide research, coordinating statewide workshops, reviewing consultant work, preparing federal funding grant proposals, etc. Through this contract, E-Squared Engineering staff work closely with multiple state agencies as well as the motor carrier community - including the Florida Department of Agriculture and Consumer Services, the Florida Department of Revenue, the Florida Highway Patrol, the Florida Department of Highway Safety and Motor Vehicles, the Florida Permits Office, and the Florida Motor Carrier Compliance Office, the Florida State Technology Office and the Florida Trucking Association.

Under this multi-year year contract E-Squared Engineering not only performs tasks on an as-needed basis, but also is responsible for the ongoing coordination and organization of the CVISN program meetings and documents. E-Squared Engineering is responsible for organizing the monthly CVISN meetings, which includes all venue arrangements, agenda development, meeting minutes, and posting of CVISN documents on the ITS website. E-Squared Engineering has also facilitated the training of the CVISN team with regard to ITS technologies that are or are soon to be deployed in Florida. E-Squared Engineering has also been tasked with developing an introductory level CVO course for Florida DOT.
